EXECUTIVE SUMMARY

Motivated AI & Data Science graduate with practical experience in machine learning, deep learning, data preprocessing, model evaluation and data visualization tools such as Power BI . Passionate about leveraging data-driven insights and AI technologies to drive innovation and business growth.

EDUCATION

- | | |
|---|----------------------------------|
| ● B.Tech - Artificial Intelligence and Data Science
Chettinad College of Engineering and Technology – Karur | 2022 to 2026
CGPA – 8.05 |
| ● Higher Secondary
Government Hr. Sec School – Uppidamangalam,Karur | 2020 -2022
Percentage –76.8% |
| ● SSLC
Rani Meyyammai Hr. Sec School – Karur | 2019 - 2020
Percentage –84.4% |

EXPERIENCE

- **Certifications**
 - Full Stack Development,Frontend Technologies,C and C++,Data Visualization using python and R Programming,Microsoft Advanced Excel,Intro to Devops,REST API and Python.
- **Internships**
 - Full Stack Development through Adroit Technologies.
 - Overview of Python,React JS and Android Development details through Iroid Technologies at Cochin.

TECHNICAL SKILLS

- **Programming:** HTML,CSS,Python,React JS,SQL
- **Tools & Platforms:** Power BI,MS word,MS Excel,MS Presentation,Visual Studio code

SOFT SKILLS

- | | |
|-----------------------|---------------------------|
| ● Analytical Thinking | ● Leadership & Ownership |
| ● Time Management | ● Effective Communication |
| ● Team Collaboration | ● Continuous Learning |

PROJECTS

- **Deepfake Video Detection Using Spatial and Temporal Feature Learning:** A deepfake video detection system using CNN and LSTM models to identify manipulated videos through spatial and temporal feature analysis.
- **Climate Change Monitoring with Satellite Data:** Used machine learning algorithms to predict climate changes and notify farmers, aiding in seed selection.
- **Blood and Organ Bank Management System:** Web based platform developed efficiently manage the storage,donation and distribution of blood and organs in hospitals.
- **Restaurant Management System:** A software application that streamlines restaurant operations such as order processing, table reservations, billing, and inventory management.
- **Online Fashion Store:** Modern ecommerce platform designed to offer customers a seamless and enjoyable shopping experience for clothing,accessories and footwear.
- **Quiz Application:** A web-based platform enabling users to take quizzes in a timed, interactive environment. Admins can manage quizzes, and users can review their performance.
